About me

Unity Developer with 6+ years shipping games and VR software. Co-founder of two indie studios, with games released on Steam and Epic. I focus on gameplay and tools, owning systems end to end. I also teach game development to young people.

Skills

UNITY & PLATFORMS

#C# #Unity #Editor Scripting
#UI Toolkit #Input System

Bachelor's degree in Video Game Design and Development
Tech Talent Center (UPC)

Languages

Catalan - Native
Spanish - Native
English - Intermediate

Teaching

2026 • **Unity Instructor**
"From Zero to Hero"
Biblioteca Can Fabra
Weekly workshop, teens 12-15

Professional Experience

Bearded Pixels Games — **Oct 2025 – Present**

Unity Developer · Full-time

- Sole Unity developer for **The Singular Ones**, a cozy logic-mystery game: architecture, gameplay systems and art.
- Built a procedural puzzle generator so designers can create unlimited puzzles, test them in-game and export them as JSON.
- Built a one-click import pipeline for **100+ story scenes** and **40+ puzzles** as ScriptableObjects for fast iteration.

Headless Division — **Jun 2025 – Present**

Co-founder & Unity Developer · Side project

- Programmed all of **RESEED**, a puzzle platformer, and shipped it on Steam in **3 months**, from first prototype to release.
- Built the record-and-replay core loop, input remapping, localization into **8 languages**, colorblind options and achievements.

Cookie Box Group — **Feb 2026 – Jul 2026** · 6 mos

Unity Developer · Part-time, via Bearded Pixels

- Joined late in development and got up to speed with the codebase without disrupting the team.
- Built two 3D driving simulators for **Egarsat**, a workplace-safety serious game: asset integration, lighting, physics and gameplay.
- Optimized for WebGL so it runs smoothly in the browser on low-end PCs.

Univrse — **Jan 2024 – May 2025** · 1 yr 5 mos

Mid Unity Developer · Full-time

- Co-developed the **XRoam SDK** for multi-user, location-based VR on Pico: **50+ users** per session, **130+ installations**, **4M+ visitors**.
- Reworked most of the FishNet core networking to keep 50+ headset sessions stable.
- Created editor tools (Custom Inspectors, UI Toolkit) to build multiplayer VR experiences with little or no code.

Arrowfist Games — **Feb 2020 – Dec 2023** · 3 yrs 11 mos

Co-founder & Unity Developer · Full-time

- Co-led Unity development of **Deflector**, an action roguelite on PC and consoles: **~20k copies** sold, **87% positive** (280+ Steam reviews). Incubated at **GameBCN**, published by **SuperGG**.
- Implemented all enemy AI, playable characters, skills and bosses, and the game feel of combat.
- Built JSON-driven balancing and integrated Steamworks and Epic Online Services.
